Calculating Child Support When Parents Have Split Custody

| | Plaintiff | Defendant |
|---|-----------|-----------|
| 1. Each parent's adjusted net weekly income. | \$ _____ | \$ _____ |
| 2. The number of natural or adopted children from this case living in the other parent's household. | _____ | _____ |
| 3. Each parent's support obligation for the children living in the other parent's household according to the support schedules. | \$ _____ | \$ _____ |
| 4. Highest support amount from item A.3. | \$ _____ | |
| 5. Lowest support amount from item A.3. | \$ _____ | |
| 6. Subtract line A.5. from line A.4. for amount to be paid by the parent owing the highest support amount. | \$ _____ | |

Calculating Support When Parents Have Shared Economic Responsibility

(This formula is used only when one parent has the child(ren) 128 days or more during the year, and the other parent has the child(ren) 237 days or less during the year.)

| | Plaintiff | Defendant |
|--|---|--------------|
| 1. Each parent's adjusted net weekly income. | \$ _____ | \$ _____ |
| 2. For the purposes of this formula: | | |
| A = The number of days the children spend with the plaintiff. | | A = _____ |
| B = The product of A multiplied by itself. | | B = _____ |
| C = The number of days the children spend with the defendant. | | C = _____ |
| D = The product of C multiplied by itself. | | D = _____ |
| E = Plaintiff's normal support obligation determined from the schedule. | | E = \$ _____ |
| F = Defendant's normal support obligation determined from the schedule. | | F = \$ _____ |
| 3. Insert the above values into the following formula to determine weekly support amount and who the payer is. If the formula result is negative, the plaintiff is the payer. If the formula result is positive, the defendant is the payer. | $\frac{(B \times F) - (D \times E)}{(B + D)} =$ | \$ _____ |

{plaintiff or defendant printed based on formula result} is the payer:
